Results-oriented Full-Stack Developer deeply intrigued by the field of artificial intelligence.

EXPERIENCE

Web Developer/Data Scientist

Apr 2023 - Present

O&M Solar, Curitiba

As a Web Developer and Data Scientist, I developed scalable web applications using Next.js, NestJS, React.js, and React Native, while managing databases with MySQL, PostgreSQL, and MongoDB. I leveraged JavaScript, TypeScript, and Docker for efficient coding and deployment, and utilized Python and Apache Kafka for data analysis and real-time processing, delivering comprehensive and impactful technology solutions. Additionally, I actively participated in Agile methodologies and Scrum practices to enhance project management and team collaboration, ensuring timely delivery of high-quality software.

Web Developer

Apr 2022 - Apr 2023

Zerodox, Curitiba

As a Web Developer, I built robust web applications using Laravel, Vue.js, and Express.js, while managing databases with Microsoft SQL Server, MySQL, and Oracle. I utilized PHP, JavaScript, axios, and Docker for efficient development and deployment, and created desktop applications with Electron.js, delivering comprehensive and scalable web solutions. Furthermore, I employed Agile methodologies and Scrum practices to streamline development processes and improve team coordination, resulting in more efficient and effective project outcomes.

Factory Supervisor

Nov 2020 - Nov 2021

Renault, São José dos Pinhais

As a Factory Supervisor at Renault, I managed daily production, coordinated teams, and ensured quality and safety standards. I optimized processes, monitored performance, and addressed issues to maintain efficient and effective operations.

EDUCATION

Artificial Intelligence

Sep 2023 - Dec 2024 (Expected)

Universidade Tecnológica Federal do Paraná, Curitiba

Bootcamp - Web Development

Jan 2022 - Mar 2022

Ironhack, Curitiba

Bachelor of Engineering (B.E.) - Electrical Engineering

Jan 2015 - Dec 2020

Universidade Federal do Paraná, Curitiba

SKILLS

Python, TypeScript, Git, Next.js, React, React Native, HTML, MongoDB, Node.js, Nest.js, CSS, SQL, NoSQL, Scrum, Agile, scikit-learn, EasyGA, Keras, TensorFlow...
